Roscioli**

President
Federalberghi Roma

COMPETITION GROWTH DRIVERS OPPORTUNITIES

Every year, during day one of the conference, we take the privilege of exploring global scenes and discuss what is happening much beyond our country borders, at global scale.

How are conflicts, financial shocks, turmoil and climate changes impacting our heavily tourism-dependent economy in the medium and long term? Is Italy as attractive as other leading destinations in terms of hospitality and tourism infrastructure development? Are investors reviewing their return expectations on tourism investments in the country based on an ever-changing risk paradigm following political events?

We investigate these and other perspectives with open discussions and analyses from prominent industry experts, economists, advisors and bankers. Since 2019, this makes ITHIC the *"cannot miss yearly kermesse"* on tourism and hospitality real estate and finance in Italy.

THE LEADING FORUM ON HOSPITALITY AND TOURISM REAL ESTATE AND FINANCE

Top economists, bankers, developers and asset owners join forces at ITHIC to interpret and shape the future of tourism and hospitality in Italy.

A cutting edge knowledge about *who, why, what, where* in hospitality, travel and tourism is the prerogative of this international conference: among top speakers, the leading figures of **Bocconi, Oxford Economics**, the whole **Italian banking system**, the **Italian institutions** dealing with tourism development, the **Ministry**, the **ECB** and other **EU experts**, and tens among the largest investment platforms take part to the conference as keynote speaker or panelists, to discuss the role of Italy within the largest European and global competitive landscape.

With participants from **27 countries** of the world, capped at **1.200 participants per year**, ITHIC delivers the highest and most updated industry knowledge in Italy in the sphere of hospitality and tourism investments, being the 3rd largest conference in Europe in its industry.
